

ADDENDUM #2

RFA-2022-DLTSS-03-COMMU Community Based Health Care Coordination Services

On February 9, 2021, the New Hampshire Department of Health and Human Services published a Request for Applications, soliciting applications for the provision of services that increase the accessibility of comprehensive pediatric specialty care for children with special health care needs.

The Department is publishing this addendum to:

1. Delete and replace Section 1 Request for Services, Subsection 1.1 Purpose and Overview, Paragraph 1.1.1 Purpose, with the following:

1.1.1 Purpose

This Request for Applications (RFA) is published to solicit applications for the provision of services that increase the accessibility of comprehensive pediatric specialty care for children with special health care needs, and their families, statewide. The intent is to enhance the system of care with community-based health care coordination services that incorporate the following components:

- 1.1.1.1 Increase capacity for care coordination for children with special health care needs whose access to appropriate care is hindered by disability, economic, cultural, linguistic, or other social and structural barriers.
- 1.1.1.2 Increase the participation of families with children with special health care needs in planning and delivery of services in all programmatic areas, including the assessment of consumer satisfaction.
- 1.1.1.3 Increase current services to children with special health care needs and their families, including community-based health care coordination.
- 1.1.1.4 Enhance the ability of established organizations linked to communities to provide quality health care and family support to children with special health care needs.
- 1.1.1.5 Integrate new services to enhance the system of care and coordinate service delivery.

The Department of Health and Human Services (Department) anticipates awarding one (1) contract for the services in this RFA.
